

MULTI-PHASE WATERFRONT CONDO

222 Riverfront Ave SW Calgary, Alberta

Waterfront Condos required a high quality and cost efficient lighting solution for their building. Calgary Lighting Products provided a flexible payment plan with real payback savings realized within 23 months of installation. The real payback calculation allowed *Waterfront* Board of Directors to see how cash savings from the project would cover the upgrade costs themselves.

In upgrading the building's lighting, *Waterfront* Condos was able to reduce electricity by 53%, while eliminating maintenance and replacement costs for the next 5 years.

10-YEAR CASH SAVINGS:

\$361,650

ENERGY SAVINGS:

301,390 KWH

PAYBACK:

23 MONTHS
